

### **Why Is Fabric Innerduct Affordable For Business?**

Fabric innerduct is a very good option for every business on the basis of affordability, unique design, environmental friendliness, and shipping cost. Let us go into depth about the characteristics so that we can be aware of why you should buy the innerduct from Fabric innerduct manufacturers to fulfil your business requirements and requisites.

The design is easily distinguishable.

Detection of different varieties of fabric innerducts is so easy, which are 1 cell, 2 cell, and 3 cell. This is because of the respective tapes printed on them. While installing them, experts easily identify these tapes.

Long-lasting Service Life

The fabric innerduct has a relevant amount of chemical inertness. That aids in long-term survival in a hostile environment. Generally, the design service life of the innerduct is 50 years.

Shipping Costs are Reduced Due to the Small Volume

The weight of the fabric innerduct is only one by twelve of the polyethylene sub-pipe, resulting in a reduction in shipment costs.

Fabric innerduct's volume is only one by nine of a polyethylene sub pipe, so it can reduce the warehouse cost.
